CORE SKILLS

- HTML5, CSS3, JavaScript ES6+
- React.js, Hooks, React Router
- Node.js, Express.js, REST APIs
- MongoDB, Mongoose, CRUD
- JWT Authentication, Bcrypt, RBAC
- Axios, Fetch API, API Integration
- Tailwind CSS, Bootstrap
- Responsive Layouts, Dashboard UI
- Figma, Canva, Wireframing
- Prototypes, User Flows, Typography
- Git, GitHub, VS Code, Postman
- Vercel, Render, Form Validation

EDUCATION

Gujarat University
B.Sc. Information Technology
2023 - 2026

TRAINING

MERN Stack Development
Frameboxx IT, Ahmedabad
2025 - Present

LANGUAGES

English, Hindi, Gujarati

FOCUS AREAS

- Clean UI development
- Reusable components
- API-connected dashboards
- Mobile-first design

PROFESSIONAL SUMMARY

Full Stack Developer fresher with practical experience in MERN stack development, responsive web interfaces, REST APIs, dashboards, authentication, CRUD modules, and database-driven applications. Strong in React.js frontend development, Node.js/Express backend APIs, MongoDB data handling, reusable components, clean forms, and user-friendly layouts with modern design practices.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, React Router, Axios
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt, MVC Architecture
Database: MongoDB, Mongoose, schema design, CRUD operations, database-driven modules
Tools & Concepts: Git, GitHub, VS Code, Postman, Vercel, Render, Figma, Canva, wireframes, prototypes, user flows, typography, spacing, responsive design

PROJECTS

Printing Management System | MERN Stack, JWT, Tailwind CSS

- Built a complete printing management platform with users, machines, papers, products, pricing rules, quotations, orders, invoices, and role-based dashboards.
- Designed responsive React pages with reusable components, validated forms, Axios API calls, and clean admin workflows.
- Developed REST APIs for authentication, CRUD operations, pricing calculation, and dashboard data management.

Aabhushan Jeweler Management System | React.js, Node.js, Express.js, MongoDB

- Created a jewelry dashboard for products, customers, staff, inventory, orders, and sales management.
- Implemented protected routes, JWT login flow, role-based dashboard access, and MongoDB data handling.

Task Management System | MERN Stack

- Developed task app with add, edit, delete, pending, and completed status features connected with Express APIs and MongoDB.
- Added dark/light mode, improved buttons, reusable components, responsive pages, and clean task status flow.

Car Rental System | Node.js, Express.js, MongoDB

- Built car rental app with Admin, Car Owner, and Customer roles, car listings, booking management, and backend APIs.

Portfolio Website + Weather App | React.js, API Integration

- Designed portfolio website with project showcase, contact section, navigation, and mobile-friendly layout.
- Built weather app using external API to display real-time city-based weather data with dynamic UI updates.

ADDITIONAL PROJECT EXPERIENCE

- Dashboard and authentication modules with login, protected pages, role-based access, validation, and API-connected data flow.
- LMS-style modules and admin screens using React components, routing, forms, tables, search/filter ideas, and responsive layouts.
- Reusable UI patterns for sidebars, cards, forms, modals, buttons, status badges, and data-management screens.

PROFESSIONAL TRAINING HIGHLIGHTS

- Completed Full Stack / MERN Stack training covering HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, routing, JWT authentication, and API integration.
- Implemented authentication screens, dashboard UI, reusable components, form validation, responsive pages, and database-connected modules.

STRENGTHS

- Quick learner with strong project-building practice and understanding of frontend-to-backend flow.
- Comfortable creating clean interfaces, debugging errors, improving layouts, and connecting APIs with React applications.

PRACTICAL DEVELOPMENT EXPERIENCE

- Created admin-style screens using tables, forms, status labels, side navigation, cards, and reusable React components.
- Worked with GitHub project workflow, deployment preparation, API testing in Postman, and frontend/backend error debugging.
- Implemented search/filter ideas, clean validation messages, mobile-friendly layouts, and consistent spacing for dashboard modules.
- Prepared module-wise user stories, Jira-style tasks, and testing scenarios for production-ready web application screens.
